

Oxford Plant Sciences

PHYSICAL COMPATIBILITY TESTING REQUEST FORM

Agreement No.	<i>OFFICE USE</i>
Protocol No.	

Oxford Plant Sciences is an Officially Recognised Testing Facility for carrying out physical compatibility tests in the laboratory. The tests provide miscibility data on component parts of agrochemical tank-mixtures. They are conducted in accordance with the CPA guidelines (formally BAA guidelines) and fully meet the demands of UK pesticide registration. The data is accepted by the UK Pesticide Safety Directive for support of tank-mixture recommendations. Details of the testing protocol are available upon request.

Cost of Static Test carried out for all physical compatibility studies

No. of tests	Price band	Price per test (excl VAT)
1-5	A	£125
5-20	B	£85
20+	C	£75

Additional Cost of Dynamic Test carried out only if the results of the Static Test are imprecise. Oxford Plant Sciences will advise you if this is recommended after completion of the static test.

No. of tests	Price band	Price per test (excl VAT)
1-10	A	£60
10+	B	£50

If you wish to have tests carried out, please complete the information below and email to the OPS address at the end of the request form. You will receive an acknowledgement of receipt and be provided by Oxford Plant Sciences.

Static Tests Required

Test No.	Name of master product (with rate of use)	Name of mixture partner (with rate of use)	Water volume required in test	Sponsor to provide product (Y/N)
